Composition, uses, and production. Commercial decaBDE is a technical mixture of different PBDE congeners, with PBDE congener number 209 (decabromodiphenyl ether) and nonabromodiphenyl ether being the most common. The term decaBDE alone refers to only decabromodiphenyl ether, the single "fully brominated" PBDE.. DecaBDE is a flame retardant.The chemical "is always used in conjunction with ...

2.2. Big Data analytical methods " related to Q2. To facilitate evidence-based decision-making, organizations need efficient methods to process large volumes of assorted data into meaningful comprehensions (Gandomi & Haider, 2015).The potentials of using BD are endless but restricted by the availability of technologies, tools and skills available for BDA.

Critical analysis of Big Data challenges and analytical

The original reactant molecule, resting on a flat silver surface, is imaged both before and after the reaction, which occurs when the temperature exceeds 90 degrees Celsius.

First-ever high-resolution images of a molecule as it

EPA sets limits on environmental radiation from use of radioactive elements. The Radiation Protection website describes EPA's radiation protection activities, regulations and supporting information.

Solvent Considerations in Green Chemistry

Hi Harish! Wow, your question is not a short one! Basically Gaussian uses the Bery Optimization algorithm which calculates all forces on every atom (i.e. which way and how strongly is each atom being pushed or pulled by the rest of the atoms) then it also calculates the gradient of such forces and allows them to be pushed -or pulled- just a little bit and repeats the operation until the ...
