Aircraft Communications and Navigation Systems

Avionics are the electronic systems used on aircraft, artificial satellites, and spacecraft. Avionic systems include communications, navigation, the display and management of multiple systems, and the hundreds of systems that are fitted to aircraft to perform individual functions.

Avionics - Wikipedia

The debate on safety. In the United States, the Federal Communications Commission (FCC) restricts cell phone usage on aircraft in order to prevent disruption to cellular towers on the ground. As mentioned above, the FAA allows the in-flight use of wireless devices but only after the airline has determined that the device will not interfere with aircraft communication or navigation.
