Click on reflection page to download. I think if there is one thing that has made the most impact on my teaching - it would be my reflective practice. At the end of the day I always take a moment to look at how the day went. I do not linger on my answers. Rather, I write down what immediately comes to mind. It does not take long to quickly review your day.

An experiment is a procedure carried out to support, refute, or validate a hypothesis. Experiments provide insight into cause-and-effect by demonstrating what outcome occurs when a particular factor is manipulated. Experiments vary greatly in goal and scale, but always rely on repeatable procedure and logical analysis of the results.

What is Narrative Therapy? A Definition. Narrative therapy is a form of therapy that aims to separate the individual from the problem, allowing the individual to externalize their issues rather than internalize them. It relies on the individual's own skills and sense of purpose to guide them through difficult times (Narrative Therapy, 2017).
