

international financial management by pdf

Managerial agency problems have been a central focus in financial economics for decades with many studies on these problems appearing in Financial Management. For this curated issue, I have chosen seven articles published in the last ten years that provide insights into how the monitoring of management can resolve agency problems.

Financial Management - Wiley Online Library

Financial risk management is the practice of economic value in a firm by using financial instruments to manage exposure to risk: operational risk, credit risk and market risk, foreign exchange risk, shape risk, volatility risk, liquidity risk, inflation risk, business risk, legal risk, reputational risk, sector risk etc. Similar to general risk management, financial risk management requires ...
