Technology can be viewed as an activity that forms or changes culture. Additionally, technology is the application of math, science, and the arts for the benefit of life as it is known.

Technology - Wikipedia

A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi.. Network computer devices that originate, route and terminate the data are called ...

Computer network - Wikipedia

The Institute's core objective is to conduct outstanding, interdisciplinary, and problem-oriented basic research, which at the same time drives application-oriented projects and, moreover, stimulates the formulation of new research questions.

What are the other hallmarks of networked organizations? Their low levels of solidarity mean that managers often have trouble getting functions or operating companies to cooperate.

What Holds the Modern Company Together?

Editor's Note: This is a milestone article that deserves careful study. Connectivism should not be confused with constructivism. George Siemens advances a theory of learning that is consistent with the needs of the twenty first century.
