Assistive technology is an umbrella term that includes assistive, adaptive, and rehabilitative devices for people with disabilities or elderly population while also including the process used in selecting, locating, and using them. People who have disabilities often have difficulty performing activities of daily living (ADLs) independently, or even with assistance.

Assistive technology - Wikipedia

Biological control is an environmentally sound and effective means of reducing or mitigating pests and pest effects through the use of natural enemies. The aim of Biological Control is to promote this science and technology through publication of original research articles and reviews of research and theory. The journal devotes a section to reports on biotechnologies dealing with the ...

Biological control or biocontrol is a method of controlling pests such as insects, mites, weeds and plant diseases using other organisms. It relies on predation, parasitism, herbivory, or other natural mechanisms, but typically also involves an active human management role. It can be an important component of integrated pest management (IPM) programs.. There are three basic strategies for ...

Questionable Cancer Therapies Stephen Barrett, M.D. The American Cancer Society (ACS) has defined

questionable methods as lifestyle practices, clinical tests, or therapeutic modalities that are promoted for general use for the prevention, diagnosis, or treatment of cancer and which are, on the basis of careful review by scientists and/or clinicians, deemed to have no real evidence of value [1].

Questionable Cancer Therapies

La discinesia tardiva Ã una grave e spesso irreversibile patologia iatrogena (cioÃ causata da un farmaco) caratterizzata da movimenti involontari, il piÃ delle volte coinvolgenti la zona orofacciale, causata dai farmaci neurolettici in particolare quelli di prima generazione come le fenotiazine e l'aloiperidolo ma anche, in misura minore, da tutti gli altri neurolettici e i farmaci che ...

The bestselling resource from the most trusted name in special education gets a top-to-bottom update in this new third edition. Revised to reflect the realities of today's K-12 classrooms, this book gives teachers all the latest research-based, practical strategies for fully including students with sensory impairments and cognitive and physical disabilities.

Including Students with Severe and Multiple Disabilities

My major research interests are in the areas of clinical psychology, psychiatry, neuropsychology and behavioural medicine. I have gained strong international recognition for studies reporting on body image disturbance in patients with anorexia and bulimia nervosa as well as specific aspects relating to the treatment of these disorders.
